Notice Regarding Changes to the Shareholder Benefit Program (Addition of Application Method and Expansion of Benefit Contents)

We hereby announce that our company has decided to add an application method and expand the benefit contents of our shareholder benefit program, as detailed below.

Details

1. Purpose of the Changes

To express our gratitude to our shareholders for their continuous support and to encourage more people to hold our shares over the long term, we offer shareholder benefits twice a year (summer: mineral water, winter: catalog gift). To improve convenience in the application process for the winter shareholder benefit and reduce our environmental impact, we have decided to introduce an application process via a dedicated website in addition to the conventional application using a postcard. At the same time, as a special benefit for shareholders applying via the website, we will add web-exclusive items to the lineup on the website, thereby expanding the benefit contents.

We will introduce website applications and add web-exclusive items.
